Edited Message from Kira Farm Student Susan.

This month Susan tells us of the visits from overseas students, who come to help out

on the farm. This month they hosted 25 students from the UK who have been experiencing life on the farm. Susan also tells us that on visits to Kampala the traffic is very difficult and delays the return trip home. (Sounds a bit like Braunton in August!!!)

Maize grown in her garden will feed her family for 3 months. Susan sends her best wishes and thanks,

Rotary
